Miscellaneous	738 9 3	996 5 9
Total Rs. ...	33,079 11 11	37,533 1 2

The reasons of variations are as follows :—

- (i) Pay of staff. Increase is due to temporary appointment of Health Officer.
- (ii) Pay of sweepers. Increase is due to increase in the strength of sweepers.
- (iii) Increase is due to repairs done to latrines etc. during the year under report, while in the previous year no such repairs were executed.

(iv) The increase is due to the fact that besides paying a monthly allowance of Rs. 12/- for the up-keep of the buffaloes owned by sweepers to work the Municipal carts, the committee had to purchase fodder for them at a high rate of price and to supply the sweepers at cheapest rate within the means of the sweepers, thus the committee had to pay a portion of its cost due to which the expenditure exceeded the budget provision. The conservancy staff consisted of one temporary Health Officer, one Sanitary Inspector, 5 Jamadars, one Pakhalwala, Bhisti, 105 sweepers, 8 female sweepers and 12 trenching ground sweepers and one mate sweeper.

The rolling stock consisted of 70 carts, out of which 22 are used for removing night soil, 39 to remove foul water and 9 to remove city rubbish.

(v) The increase is due to purchase of three new conservancy foul water carts besides the ordinary repairs.
Renewal and repairs of rolling stock.

(vi) The increase is due to holding Teja Fair during the year under report while in the preceeding year no such fair was held.

(vii) The increase is due to purchase of more miscellaneous articles during the year under report than that of the last year.
Miscellaneous.

(viii) There are 8 public latrines and 26 urinals made of galvanised iron sheet with stone seats which are daily washed and disinfected.

During the year under report the Ajmeri Gate latrine that was of corrugated iron sheets was made pucca and that material repairs were done to Chang Gate latrine.

Night soil is collected at different depots at public latrines by the brit sweepers for final removal by Municipal carts to the trenching ground situated at a distance of about two miles away from the town in Dilwara forest on Masuda Road. Urine and foul water is taken directly from cesspools attached to public latrines and private houses for disposal to the trenching ground or its neighbouring places.

(ix) The expenditure under this sub-head was Rs. 4,513/13/9, Hospitals and against Rs. 4,613/6/9 of the last year. The decrease Dispensaries. of Rs. 99/9/- is due to less expenditure being incurred on contingent articles required for female dispensary and less amount required for burning and burial of paupers and for other miscellaneous expenditure.

(x) The expenditure under this sub-head was Rs. 667/9/3 as compared with Rs. 589/0/8 of the last year. There is however a little increase in expenditure which calls for no explanation.

(xi) Expenditure under this sub-head was Rs. 291/7/6 against Vital Statistics. Rs. 360/8/- of the last year. There is however a little decrease in expenditure which is due to appointment of a new moharrir in place of the old moharrir on a less pay. There is only one moharrir for this work. During the year under report there were 1434 births and 1416 deaths as shown in the comparative statement below. Besides these there were 35 still births during the year under report.

1. The management of the Jalia Water Works and the town supply of water was in the hand of the committee during the year under report as usual.

2. The rainfall during the year under report was 16 inches and 73 cents as recorded in Municipal rain guage fixed at the roof of the Colvin Town Hall.

The source of supply was from wells behind the Jalia tank embankment as here-to-fore, and there was sufficient water in them, after rains when Jalia tank was nearly full to meet the supply of the town.

3. The number of public hydrants in the town was 40 having 110 Hydrants distribution taps and that of private connections 320, as compared pipes and connections with 40 public hydrants with 110 taps and 281 private connections of the last year. Besides these there are 18 free water connections as per the Hon'ble the Chief Commissioner's sanction obtained in Commissioner, Ajmer-Merwara's endorsement No. 6852/XI-198 dated the 21st.
